

The Method Of Garbage Disposal だ かた ごみの出し方

Be sure to follow these Three Methods

Put Garbage in the designated bag. For burnable garbage and non-burnable garbage.

Garbage that isn't in the designated bag cannot be collected.

Please separate Burnable garbage and Non-burnable garbage and so with recyclable

Non-segregated garbage cannot be collected.

Garbage must be placed in the designated area by 8:30 AM at

If you put out the garbage the day before, there is a risk that animals will scatter it.

●For information about garbage collection days, please refer to the collection calendar distributed by Toki City or check the city's official

How to use the Garbage Calendar

- The colored boxes indicate the collection days for different types of garbage. Red is for burnable waste, blue is for non-burnable waste, and green is for recyclable waste.
- Garbage collection locations and dates may vary depending on the area, so please make sure to check in advance.
- ※You can get a free calendar at Toki City Hall.

Burnable Garbage

Non-Burnable Garbage

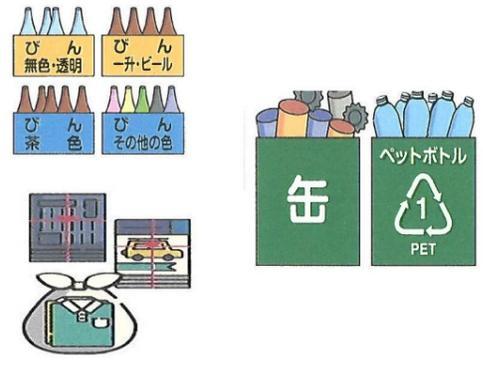

Recyclables

- Please drain any leftover food well.
- Wooden items should be cut to less than 1 meter in length and 10 centimeters in thickness.
- Food trays should be washed and disposed of at the designated collection locations in stores or at the city hall.
- Cardboard, news, papers, magazines and other waste should be separated as recyclables.
- ※Don't pour the used oil down the sink!

- Please ensure that spray cans, gas cylinders, lighters, and similar items are completely emptied before disposal.
- There is no need to puncture them before disposal.
- Dangerous items such as glass, razor blades, and knives should be disposed of safely.
- Remove the fabric or vinyl from umbrellas and dispose of it as burnable waste. Dispose of the frame separately as non-burnable waste.
- ※Please do not mix food containers. Place them in the recyclable waste.

- Please remove the caps from bottles and cans, wash the inside with water, and then dispose of them.
- Returnable bottles should be returned to the store whenever possible.
- Please sort paper items by type and tie them with string.
- There is no need to crush them or remove the labels..

Recyclable materials

しげんぶつ
資源物

Plastic bottles with the PET mark used for soft drinks, alcoholic beverages, seasonings, and similar items.

PET
Please check this mark!

Cans such as those used for juice, beer, and canned foods.

Caps from alcoholic beverages and seasonings, other plastic bottles, dirty containers, and containers for oil or detergent should be disposed of as burnable garbage.

Cans of engine oil, spray cans, dirty cans, and rusty cans should be disposed of as non-burnable garbage. If the can still has its lid attached, it can be disposed of as recyclable waste.

Lids that have been removed from cans are dangerous, so please dispose of them as non-burnable waste.

Bottles such as beer bottles, 1.8-liter bottles, juice bottles, beverage bottles, sake bottles, and seasoning bottles.

Please return beer bottles, 1.8-liter bottles, and juice bottles to the store whenever possible. All glass bottles and glass containers should be sorted according to their color and shape.

Oversized Garbage

Large items made from combustible materials (such as wood, plastic, fabric, etc.) should either be dismantled and disposed of as 'combustible waste' or brought directly to the Toki Environmental Center for disposal.

Please purchase a sticker per oversized garbage at a convenience store or supermarket at Toki city.

Large Waste Sticker: ¥500

For large waste, please remove items such as clothing, food, and fuel. Make sure to empty the items before disposal. kerosene heaters pose a risk of fire or explosion, please make sure to empty them before disposal.

Kerosene cannot be collected by the city, so for proper disposal methods, please consult an expert.
